

CLAXTON'S SPIRITS

The Claxton's family has been passionate about independently bottled single cask whisky for decades and finally began releasing their casks in 2015. As a family-owned, independent company bound to no single distiller, Claxton's proudly continue this ancient tradition by hand-selecting individual casks that reach only the highest benchmark.

Objectives

We were looking to improve the internet connection in our office which was very poor. The result of this made us want to expand the project to cover the whole property.

The project

Wi-Fi & Networking

Corona IT Solutions installed a 4G router and antenna. The internet was infinitely better than it was before leading us to expand the project to install a Wi-Fi network throughout the property.

Equipment

Have printing consumables readily available is incredibly important to our business. Being able to place an order and have the delivery the next working day has been great. We've also used Corona IT Solutions to improve the speed and running of our current computers and for purchasing new equipment.

Ongoing support

We opted for the monthly support package with Corona IT Solutions. It's been really reassuring for my team to know they can just pick up the phone or email Corona IT support and our issue will be promptly looked into by one of the friendly technicians.

We were very pleased with the very practical and value engineered solutions Corona IT provided for our company internet and network requirements. It worked excellently and has improved productivity hugely, plus the ongoing support has been fantastic. I would certainly have no hesitation in recommending them.
