

EDINBURGH SELF STORAGE

The Central Edinburgh location, state of the art facilities, and self storage expertise are just a few of the reasons why Edinburgh Self Storage is the first choice for self storage in Edinburgh.

Objectives

Edinburgh Self Storage was looking to improve their customer experience by adding additional security measures to their Edinburgh site.

Corona IT Solutions have become our go to company for all our technology needs. Corona IT are always proactively monitoring what we do and presenting us with options of how we might be able to improve what we do. This enables us to get the most out of the tech we have and what is available in an everchanging fast pace industry.

Edinburgh Self Storage

The project

CCTV

Corona IT Solutions installed a number of additional CCTV cameras including PTZ cameras with smart tracking, providing solid all round coverage of the site. Accessible by mobile phone, the site CCTV could be remotely accessed giving the Edinburgh Self Storage team great piece of mind.

Server warranty

Corona IT Solutions sourced and put in place a new 3 year warranty for the main server.

Ongoing support

Looking for piece of mind, Edinburgh Self Storage chose to become a managed client. This gives them access to the help and expertise of the Technical Support Team as well as annual technology reviews and the piece of mind that there would always be a friendly voice on the end of the phone whenever they needed it.
